VERDANT- GAMING VERSIFIED

Verdant is a tech brand aiming for a Digital universe which is especially developed for gaming freaks. We are going to create a full-fledged open world ecosystem of our own metaverse which will contain multiple world of **Verdant** and all of them will be focusing on "**Play To Earn**" system which means the players will actually be playing in the metaverse to earn tokens. **Verdant** universe will be expanded in phases throughout the lifetime of the game.

ENTER THE WORLD OF VERDANT

Verdant Gaming universe is constantly in development and the developer's team is adding more sophisticated player experience for the ecosystem which will ultimately be the reason of the adrenaline rush in the veins when you enter **Verdant**.

The community will experience **Verdant** through our first open world action RPG Game, going live before token launch for the community to get a taste of the actual gameplay. There will be constant upgrades to **Verdant** with the development team ramping up the process.

“VERDANT”,
FIRST OPEN WORLD ACTION
RPG GAME

“Verdant” is the first open world action RPG game which the Metaverse ecosystem has never witnessed. The next-gen graphics, supported by **Nvidia RTX**, gameplay and the whole ecosystem sets it apart from the rest of the 2D P2E games.

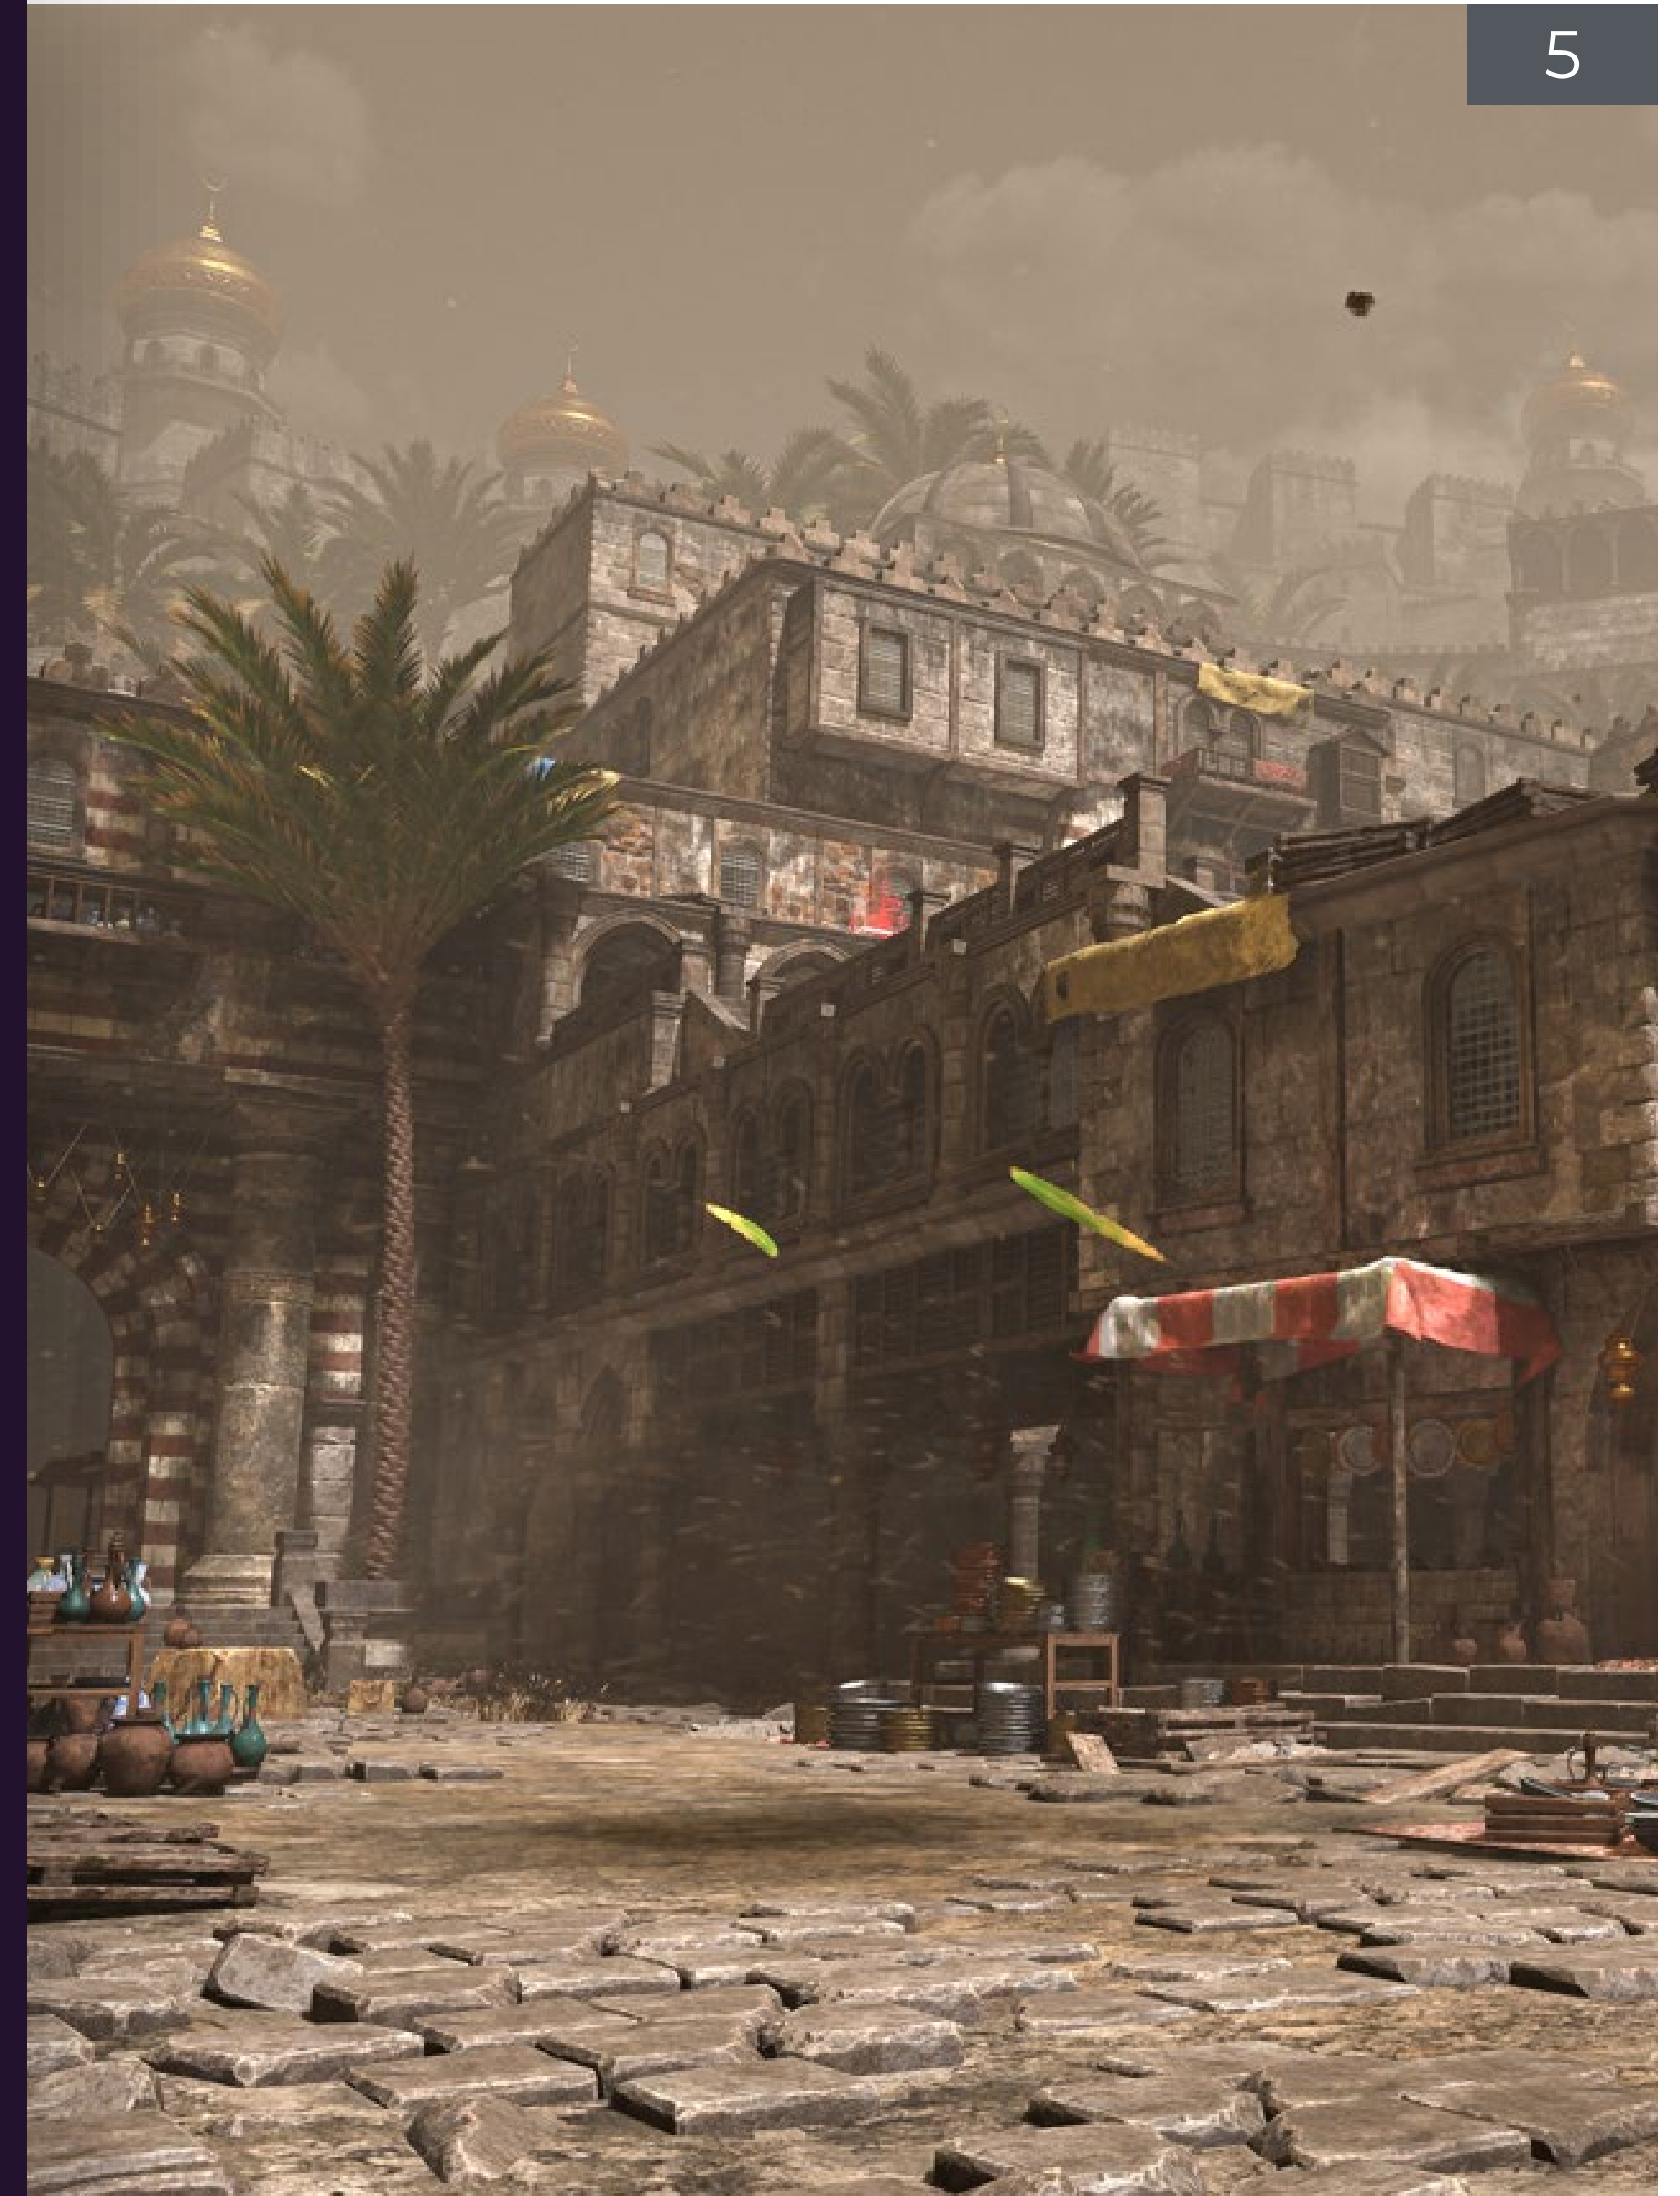

ROAM INSIDE VERDANT
UNIVERSE AND FEEL IT

TECH DEMO BEFORE LAUNCH

You can roam freely inside a part of 'The World of Verdant' & experience the gameplay completely. Yes, inside the Metaverse.

"Verdant" playable demo will be available for download at our website before token launch.

Experience the future of metaverse.

GAMEPLAY: EARN REWARDS WHILE PLAYING VERDANT

The game has been developed to be implementing the P2E system where the players can actually **earn tokens** by playing the game inside Verdant **Metaverse**. The more the player gets experienced the more potential to earn rewards/tokens. So, if you are a hardcore gamer or are looking to become one and start converting your skills to rewards, this is your chance!

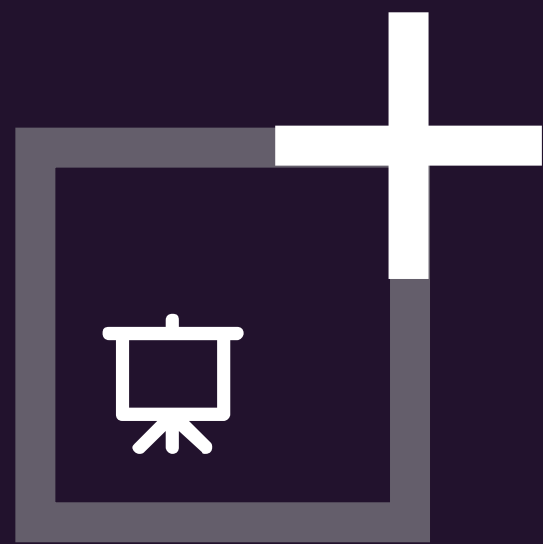

It's an open world ever expanding map/level, with multiple **in-game "Battle/Combat Arenas"** Participating in combat arenas will require contribution of '**\$VERD**' token from players, and as they duel inside with other participants, they earn '**\$VERD**' token by fragging/defeating other players, they also win weapons and upgrades in the form of NFT's which they can trade or sale in the Players Chill-out zones or NFT markets place in game. There will be ample of mini games to test any type of player skill.

CHILL-OUT ZONES

There will be many **"Player's Chillout Zones"** present throughout the metaverse, where players can buy/sale or exchange NFT's (i.e. in-game collectibles), with other players, or just chill out, chat and make friends socialize with the **Verdant** player community.

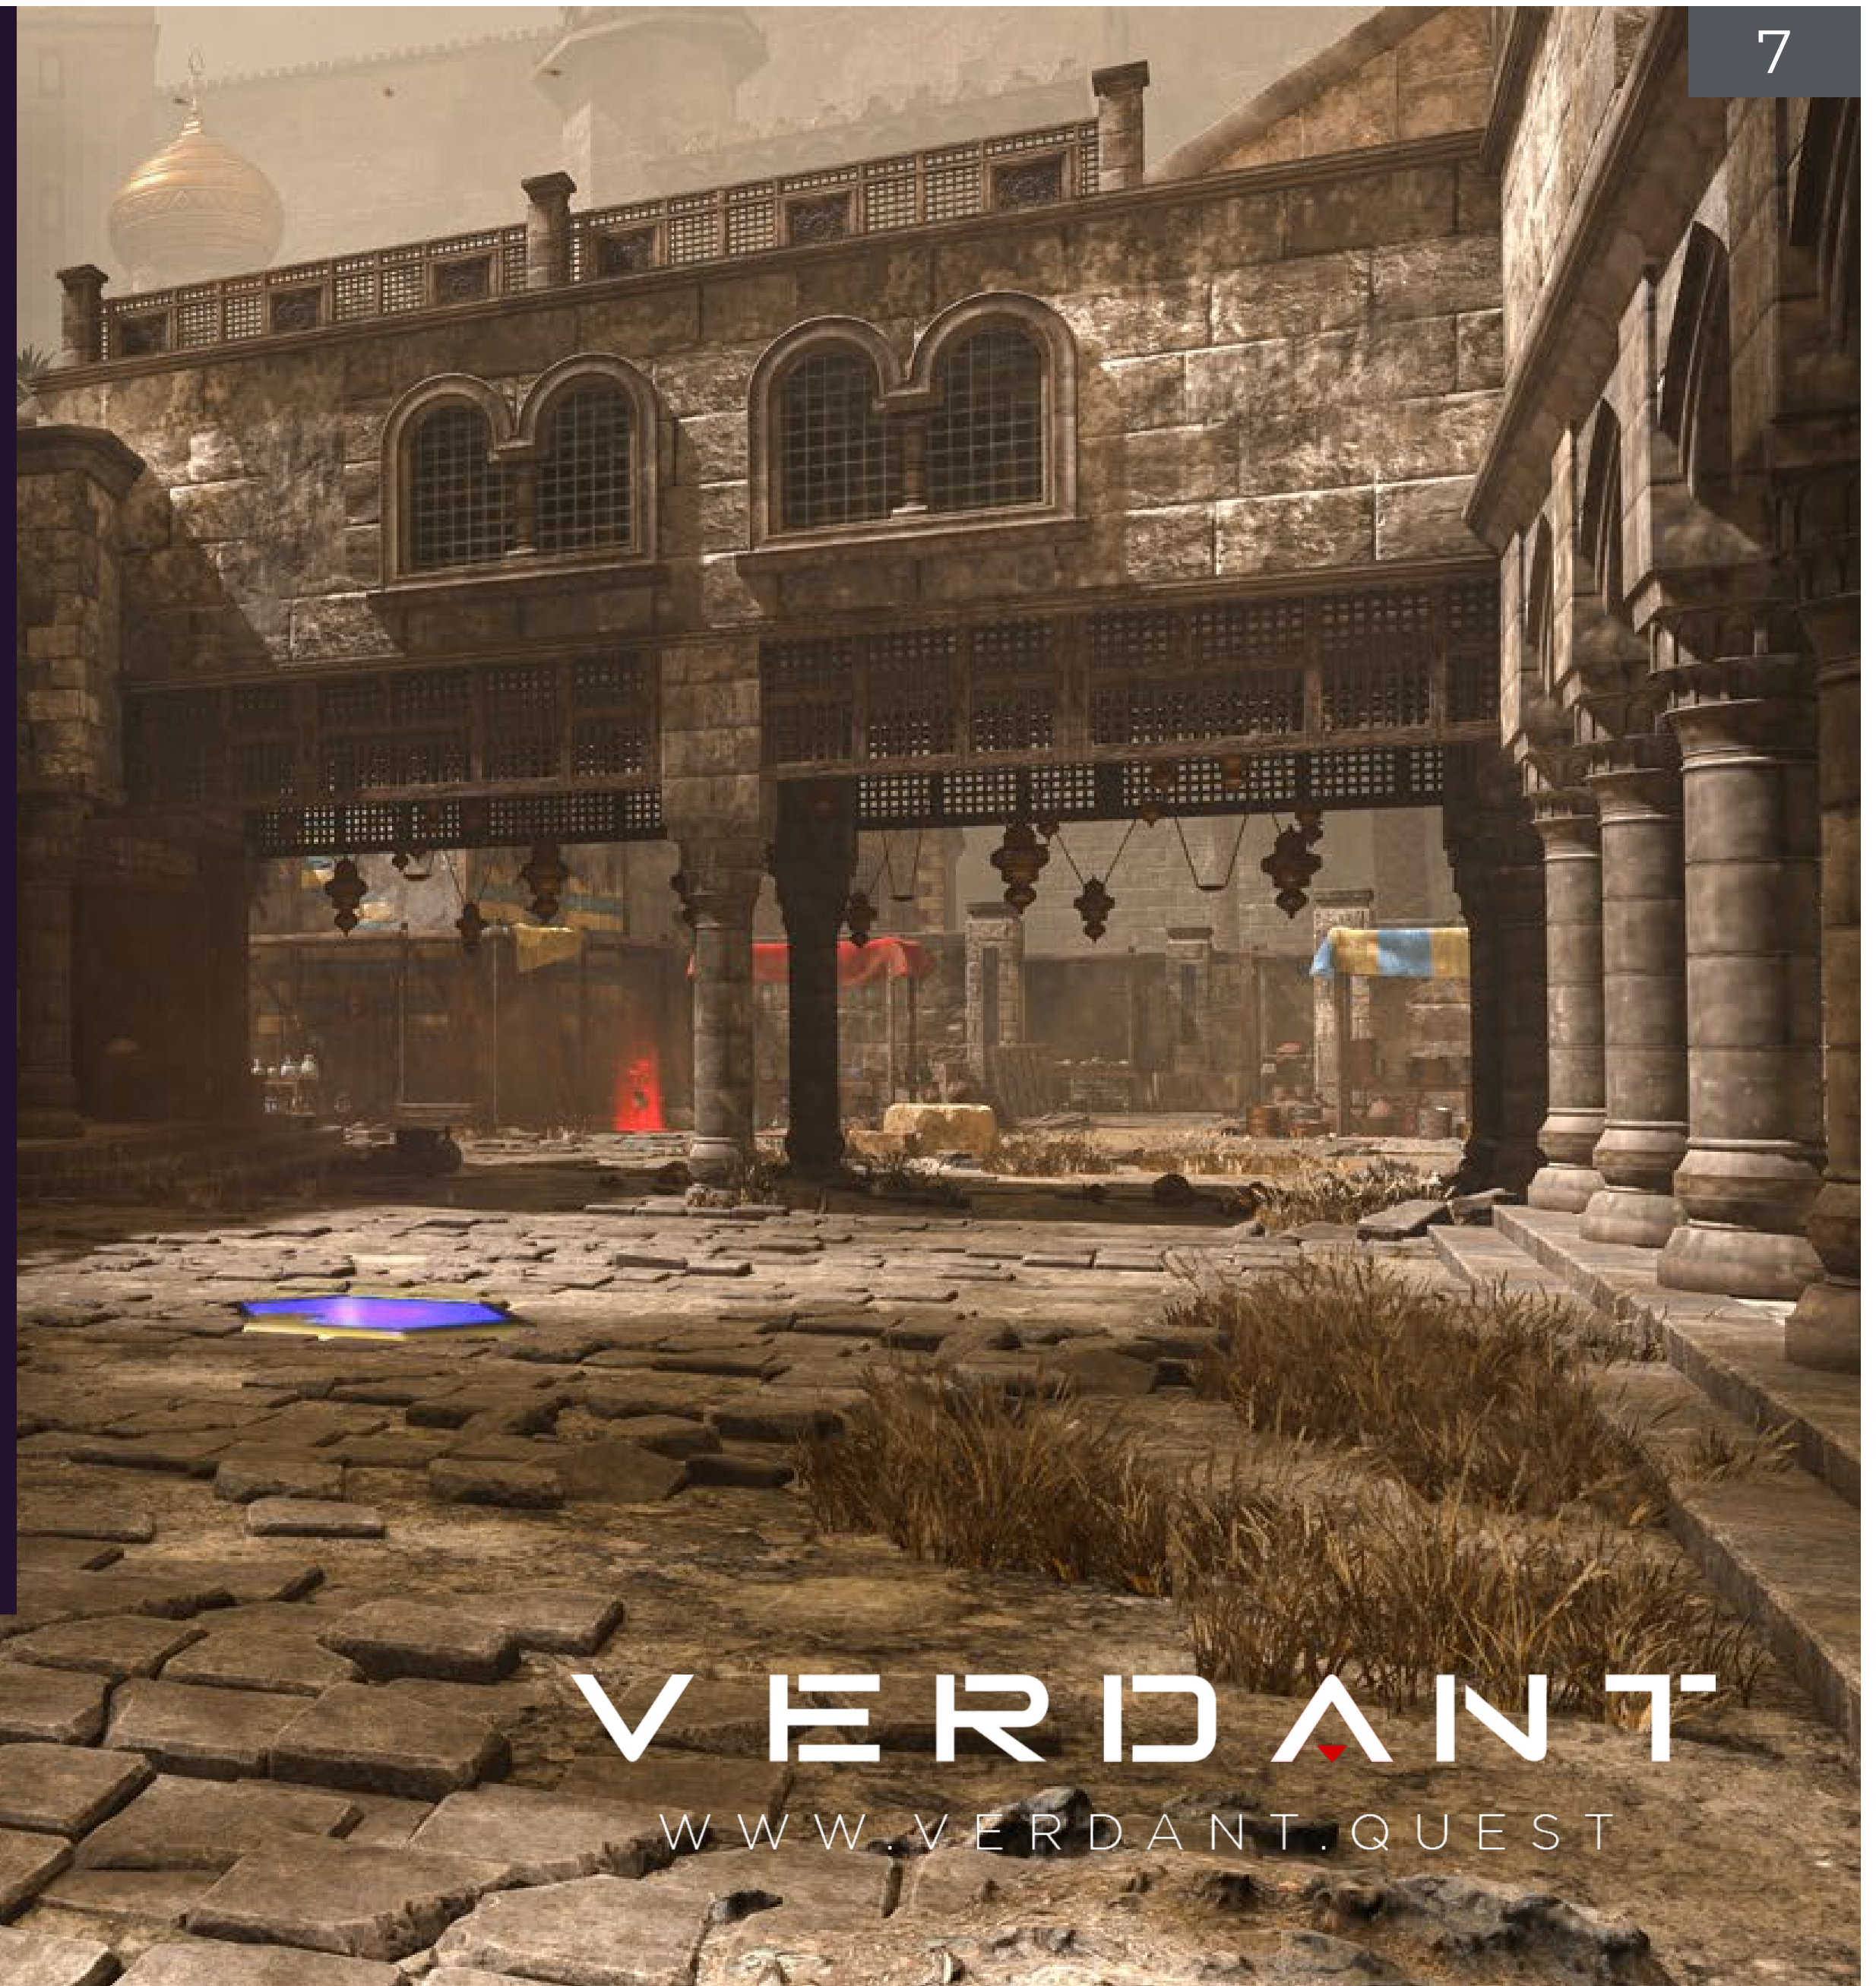

Just pay to participate win reward, or if you lose, there is always many other opportunities to participate. As new maps/levels get added to the **Verdant** World, the possibilities are endless

NEXT-GEN GRAPHICS AND GAMEPLAY

If you become a fan of **"Verdant"**, you won't want to miss our upcoming more sophisticated developments and upgrades, more next-gen graphics, more immersive gameplay. As more and more players join, the **\$VERD** token will show their true potential and we know what impact this will have on the project. We, together in the **Verdant** Community will shine.

"Verdant" is always evolving and we are constantly developing it.

WORLD OF VERDANT

The users can earn tokens by playing **Verdant** in multiple ways. Tokens are generated on the basis of number of Kills within the world of Verdant, **perks, rewards collected as collectibles, in game streaks achieved, play time, action, achievements, PvP rewards, etc.**

This simply means **the more you play, the more is your reward** and more is the tokens earned through it. Adding onto it, Verdant offers a lot more opportunities within the Verdant World to earn and generate tokens by participating in multiple arenas. Verdant also offers heavy treasure chests as bonus for exceptional players. Altogether, Verdant has loads to offer and you just have to claim it, join us, Game on.

IN-GAME NFT'S: SEE YOUR PURCHASED NFTS IN ACTION

You can purchase in-game equipment in the form of **Verdant Limited Edition NFTs using the \$VERD tokens**. Once you become a Limited Edition NFT holder, you can see the NFTs in action inside the Verdant World, **in the form of weapons, avatars, skins, upgrades** etc. The tech is in constant development by its dedicated team & Functionalities will be added in phases as we progress.

VERDANT OFFICIAL TOKEN \$VERD

Verdant ecosystem will recognize our official **\$VERD** tokens and this is the token which the players and the community members need to enter the world of Verdant and participate in Battle/Combat Arenas or Mini Games. The players need to use \$VERD tokens to buy and sell the in-game accessories NFTs which are all usable collectibles inside the **"Verdant"** ecosystem.

BENEFITS

1

The players will be given access to Verdant using the **"\$VERD"** tokens. The more you hold, the more sophisticated games you can play. This is the ultimate use-case and rewarding to holders.

2

"\$VERD" holders are the ones who will actually be playing our under-development games before anyone else does which means they will be given access to the Alpha versions of the game and will be given the power to vote on what they want to include in the game and ultimately in the Metaverse.

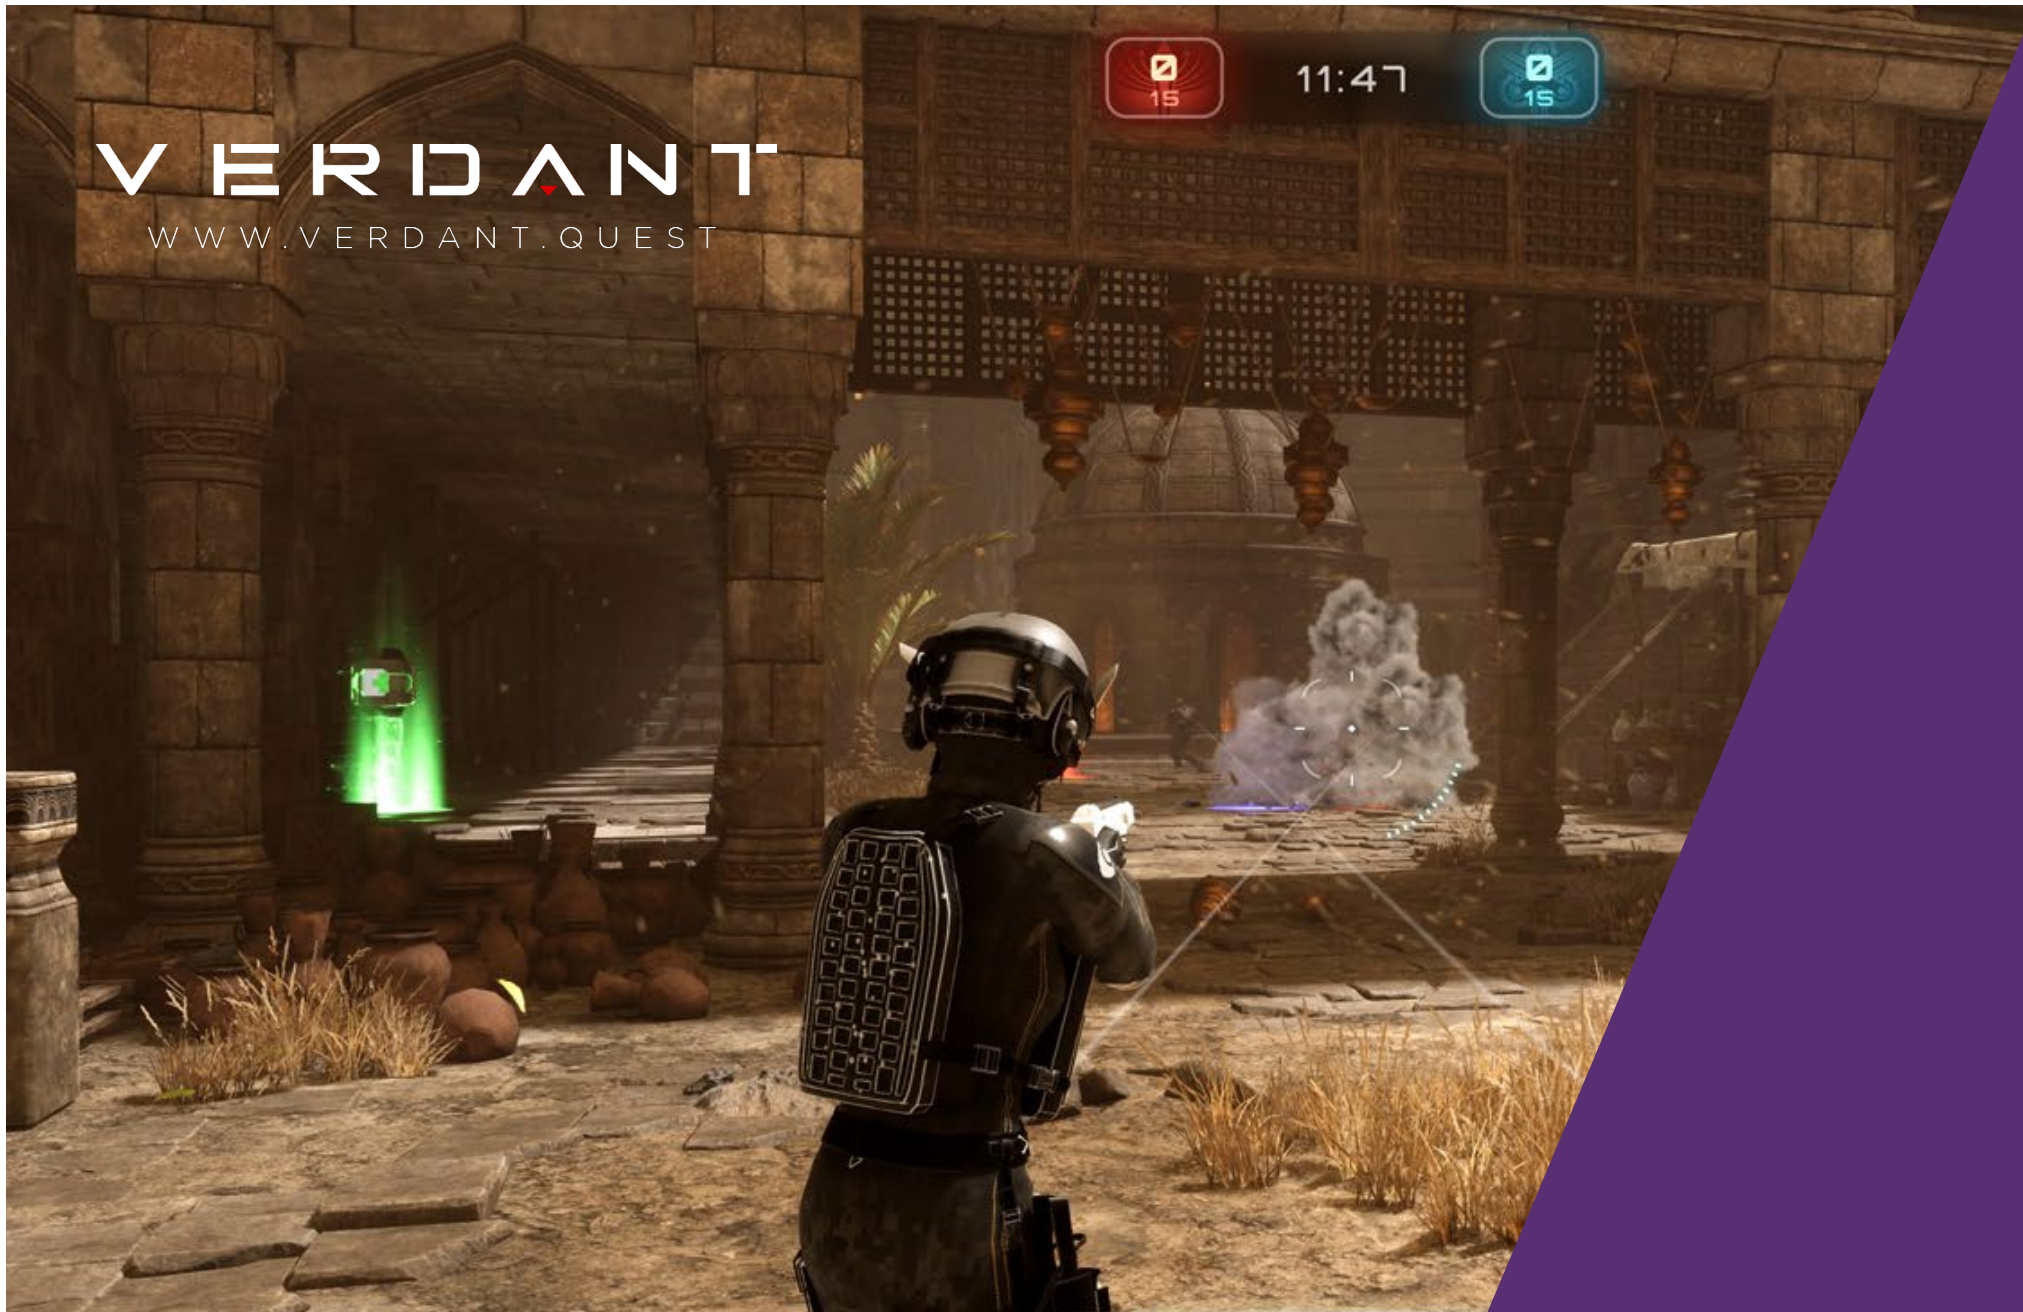

3

"\$VERD" tokens will be integrated inside every mini-game we develop and the users will be able to buy equipment, Characters and other In-Game accessories using the tokens. The accessories will be in the form of NFTs, the buyers are going to see them in action inside the game

4

"\$VERD" tokens will be used for swapping our limited edition NFTs and the price floor of these NFTs will be rising rapidly as we develop, benefitting the holders most.

LIMITED EDITION NFTS TO SEE THEM LIVE INSIDE THE WORLD OF VERDANT

Verdant will release some **very Limited Edition NFTs** to be used inside our ecosystem. Those who mint the NFTs will be able to see them **in action inside Verdant**.

The quickest minters are the ones who will have the biggest ROI (Return on Investment) for their minted NFTs. The NFT owners will be able to use the trading platform inside our Metaverse to ultimately buy and sell them or exchange them with other players (at the Players Chillout zone or in Verdant website portal).

The minting will go live after the launch and the community will be addressed about the dates

PLAY TO EARN \$VERD

Enter Verdant and compete within the Games launched to earn tokens. The more your winning points are, the more tokens you claim. You can roam inside and look for **Arenas or mini games to collect \$VERD tokens**, our P2E system handles it with ease.

Our Play to Earn system will be integrated in such a way that the players earn tokens on the basis of the points they generate inside the game. We are developing a smart system which tracks everything including the earnings, the gameplay time, the levels in the game, etc. This ensures that the players actually reap the maximum benefit while playing.

The community is going to see this in action within the **“Verdant Ecosystem”**
